

Telephone Protection Act
Docket 02-278

I support the above Act and without it I felt my privacy being invaded at nearly all hours of the day and week. There was no consideration from telemarketers as to the hour into which they were calling from their remote location. Add to this oftentimes the rudeness of the callers and how by the time you got to the phone they had already moved on to another call. I agree everyone needs to make a leaving and this includes telemarketers. I'm sure there are those eagerly awaiting "the call", but for those of us that would prefer to call rather than be called, allow the Telephone Protection Act to do ts job.

Thank you,
